

River Valley Regional Broadband Survey Analysis

Location: Georgia River Valley

Status of County: Rural

Project Timeframe: February 2021 to May 2021

Type of Assistance: Applied Research

River Valley Regional Commission Service Region

The River Valley Regional Commission (RVRC), one of Georgia's 12 economic development districts (EDD), has partnered with the Georgia Tech EDA UC for an analysis of the regional commission's rural broadband survey. This research will support the RVRC's broadband initiatives and offer a better understanding of the region's internet needs through an analysis of previously administered surveys in 2014 and 2019, and a recent (2020) broadband survey.

The project consists of three main task areas:

1. Survey data review and clean-up
2. Survey analysis
3. Final report.

The project is expected to be completed by May 31, 2021.
